Projects

Portfolio Website — HTML & CSS
Built a clean and responsive personal portfolio showcasing skills, projects, and contact details. Deployed on GitHub Pages.
Live Site | GitHub Repo

Python CLI Calculator
Developed a command-line calculator using Python functions, loops, and input handling. Practiced logic building, function structure, and error handling.
GitHub Repo

Objective

Looking for internship opportunities in frontend development or Python programming where I can apply my skills, work on real-world projects, and grow through practical learning.
